---

# PROUDLY AUSTRALIAN OWNED

**Machiaj Laboratories is a privately owned Australian Company, specialising in the development and manufacturing of tanning, skin care and sun care products.**

Our highly qualified team of chemists and technical support staff are equipped to manufacture your existing formulas or work with you to develop new product formulations.

Machiaj Laboratories has grown quickly to become a market leader in high quality products, especially in the tanning industry. Local and international companies sell products created and manufactured by Machiaj Laboratories worldwide.

## COMPETITIVE PRICING

We have highly efficient manufacturing processes and excellent purchasing power, resulting in our ability to provide very competitive prices.

Our commitment to providing low prices and value for money ensures that you can focus on your area of expertise: Launching, marketing and selling products.

# PRODUCT RESEARCH & DEVELOPMENT

**Machiaj Laboratories can work with a business of any size, to create innovative, specialised and scientifically advanced cosmetics.**

Regarded as having outstanding skills and knowledge in relation to research and development, our team will develop your formula using ingredients in compliance with global corresponding authorities.

## SERVICES

- **Development of Formulations**
- **Procedure Specifications**
- **Development of Analytical Methods** (Including method validation)
- **Stability testing** (Preservative, Efficient Testing)
- **Product Registration with Regular Authorities**
- **Pilot Batches and Technology Transfer**
- **Batch optimisation and scale up**
- **Equipment Qualification**
- **Troubleshoot and Improve Existing Formulations**
- **Extending Product Ranges**

# A DEDICATED PARTNER, FOCUSED ON GROWING YOUR BUSINESS

## MANUFACTURING PROCESS

With an excess of 30 years experience manufacturing of many leading products represented in the global market, we ensure your product quality exceeds all expectations in the market.

Along side our research and development team, our facilities and team are capable of working with orders of all quantities. Through partnering with Machiaj Laboratories, we become an essential partner; focused on growing your business, making us the perfect choice for your business.

---

## CONFIDENTIALITY

We understand that client confidentiality is important. We ensure working with you means all your company's privacy is remained intact.

---

## QUALITY CONTROL

Machiaj Laboratories operation standards are based on the validation of GMD Good Manufacturing Practices, GLP Good Laboratory Practise, strict manufacturing compliance guidelines as well as effective post-market monitoring.

---

## QUALITY GUARANTEE

To meet customer and client expectations, we ensure our highly trained staff uses only the highest quality ingredients. Along with this, Batch consistency is also a high priority.

Supplying consistent and precise quantity through our controlled processes means your formulation will be perfect every time.

Through our systems and procedures, including Quality Management Systems, Quality Assurance Production and QC Departments, each process is regularly monitored and audited by the Quality Department.

---
